S. IMPERATO F. C.

NAPOLI

I FRANCOBOLLI DEL REGNO, GARIBALDI e LUOGOTENENZA

Presento una selezione da uno studio personale di oltre quarant'anni, selezione che è una delle più complete possibili dei francobolli del Regno di Napoli, di quello emesso da Garibaldi e di quello emesso dal Luogotenente Farini rispettivamente il 1° gennaio 1858, 6/11 e 6/12/1860.

I francobolli del Regno disegnati dal Masini, stampati in calcografia su un fondo con finissimo disegno ad ornato recano a sinistra un cavallo rampante (simbolo di Napoli), a destra una trinacria rappresentante la Sicilia e in mezzo in basso tre piccoli gigli per i Borboni regnanti; in cornice la scritta "BOLLO DELLA POSTA NAPOLETANA", in basso il valore (1/2 Grano, 1, 2, 5, 10, 20 e 50 Grana; cornici di forma diversa con identificazione mediante una lettera da G a I (iniziali del nome di Masini); unico colore in rosso e sue nuances per evitare la bandiera tricolore. Carta a mano filigranata della cartiera Tayani (BT) con gigli al centro e sui bordi "BOLLI POSTALI", foglio di 200 esemplari divisi da interspazio verticale. Usati dal 2 gennaio.

Presento due blocchi di 4 del saggio non utilizzato ordinato già dal 1841 e una selezione delle prove tipografiche del Masini (l'unica trafugata e posta su lettera fu intercettata e mai servì per posta). La stampa tipografica è molto meno costosa di quella calcografica.

Alle pagine 3 e 4 le tre lettere che completano tutti i valori usati nel primo giorno (UNICUM).

Di ogni valore dal più basso al più alto presento esemplari nuovi ed usati in multipli e su lettera con le varie nuances di colore appartenenti a tutte le tavole di stampa (2 per il 1/2, per il 5, 10 e per il 20, 3 per il 2 Grana e una sola per il 50 Grana con molte grandi rarità importanti).

Alle pagine dal 74 al 78 presento importanti e rare affrancature costituite da francobolli del medesimo valore appartenenti a Tavole differenti. Alle pagine 79 e 80 varietà di stampa e stampe rectoverso; pagina 81 stampa "smossa", 82 "difetti di allineamento", 83 e 84 esemplari con piega della carta, 85 e 86 esemplari con carta "crema" per maggior contenuto di paglia e esemplari "preamidati" per migliorare la nitidezza della stampa; alla pagina 87 due affrancature molto rare con la filigrana "BT" completa (siglia di Bonaventura Tayani - un solo per foglio).

Dalle pagine 88 a 107 una selezione dei "Falsi" per frodare la Posta dei valori 2, 10 e 20 Grana. Spiccano in questa selezione due lettere affrancate col "Falso" e con l'originale del medesimo valore (2+2 e 20+20). Questa sezione contiene il più importante gruppo di francobolli "Falsi" allo stato di nuovo.

Il 6 novembre 1860 fu utilizzato il francobollo da 1/2 Tornese ordinato da Garibaldi per ridurre la tariffa dei giornali da 1/2 Grano circa 2,5 Centesimi a 1/2 Tornese = 1 Centesimo circa.

A Napoli si stampavano circa 20 "giornali" diversi. Il francobollo fu ottenuto sostituendo la "G" con la "T" sulla metà (quindi 100 francobolli) destra della II Tavola del 1/2 Grano.

Presento uno dei dieci francobolli allo stato di nuovo (3 in Musei Esteri, il Giornale con il francobollo obliterato il 6 novembre, primo giorno - 3 documenti noti) e una delle rarissime affrancature di Doppio Porto.

Dalla stessa Tavola vennero cancellati i simboli Borbonici e vennero sostituiti da una croce, emblema dei Savoia. Ogni francobollo fu inciso in modo lievemente diverso.

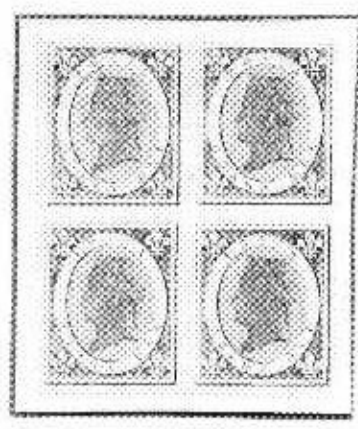

Questi francobolli furono emessi il 6 dicembre (Luogotenenza Farini). Presento uno dei rarissimi Primo Giorno d'Uso certificato da lettera scritta al retro di fascetta con "risparmio" di 7/8 del Porto dovuto, il decalco con interspazio che mostra la "G" della mezza Tavola non modificata, una selezione di rari bolli obliteratori, l'unica Filigrana "Simisoide" e l'unica "BT" su esemplare nuovo, Porti multipli (4 Croci corrispondenti a 1 Grano) e 8 corrispondenti a 2 Grana (ENTRAMBE AFFRANCATURE UNICHE) (Noto un blocco di 8 sciolto). Presento anche una affrancatura Mista con francobolli Borbonici e l'UNICA UNIVALENZA con i francobolli SPECIALI emessi PER LE PROVINCE NAPOLETANE.

# IL LUME A GAS

## GIORNALE DELLA SERA

### Costa Un Grano

Napoli 15 luglio

E potevate supporre, o almeno credere, o anche pensare, o per dir meglio sospettare, che io volessi, e potessi, e riuscissi starmi da voi diviso in questo giorno di festa, in cui il riposo mi avrebbe immensamente faticato? Quale riposo sarebbe stato il mio se avessi dovuto covare in corpo per altre 24 ore le gravi notizie che mi sono ad un tratto il serotino organo, e che erano da me

chiusa e tondo glielo dice in faccia -- nel fine che ha espresso l'abuso degli Agenti di cambio di negoziosi per loro particolar conto -- Agenti di cambio miei carissimi, siete pregati di agire con più modestia, se non volete avere il cambio. Con l'antico Carlo non si scherza, e i fulmini della Costituzione sono da lui maneggiati, come voi anche finora maneggiate le armi della malafede.

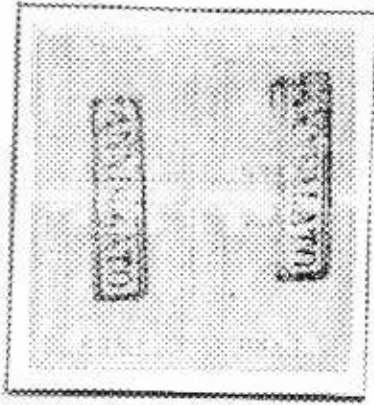

Ecco che si è fatto omaggio alle dimande del nostro *Esso* contenuto nel n. 10. 5 con la quale
